Anthony,

Per our conversation, please block the wikileaks website ASAP. Thanks,

Ron

Importance: High

Ron: Can OIT take steps POST HASTE to block the wikileaks site so that it is not accessible from FMC computers? I am copying Anthony as CIO.

OGC will draft a memo on this for Mary as ISO to circulate as we get more guidance from ISOO. Is that ok with all here?

Thanks,

Rebecca

Subject: Wikileaks Information

Jane,

John at ISOO said that we should take steps to block access to the wikileaks website, if we have not already done so, as the information on the site is still classified. Other than that he said they were meeting about it today

and he would fill me in if there were any other steps we should take.

Paul
